* No report submitted for week ending February 28, 1942, therefore, figures for week ending February 21, 1942 used; corrections will be shown on next Weekly Report.

(3-11-42)

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research.

2. The second part of the report is a detailed description of the methods used in the study. It includes a discussion of the experimental design, the data collection procedures, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results. It compares the findings with the theoretical predictions and discusses the implications of the results for the field of study.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and provides recommendations for future research.
